TikTok Shop Product Listing Quality Checklist

Pre-Publishing Compliance & High-Conversion Optimization Audit

1. PRODUCT TITLE SEO & ARCHITECTURE

TikTok Shop search indexing prioritizes clean, keyword-dense titles formatted specifically for mobile screens. Maximum length is 255 characters, but the first 45 characters dictate mobile conversions.

- **Standard SEO Formula:** [Brand Name] + [Primary Search Keyword] + [Key Benefit / Problem Solved] + [Key Attribute / Color / Size]
- **Example High-Converting Title:** EarnPure Sonic Cleaner - Ultrasonic Jewelry & Glasses Washer with 45kHz High-Frequency Vibration (Portable, White)
- **Title Ban List:** Never include clickbait phrases like "Best Product Ever", "100% Free Shipping", or unsubstantiated medical claims ("Cures Acne").

2. VISUAL ASSET STACK STANDARDS (7-IMAGE BLUEPRINT)

- **Image 1: Pure White Hero Shot:** 1:1 ratio (1080×1080px or 1200×1200px), perfectly lit, centered product occupying 85% of canvas, no distracting background clutter.
- **Image 2: Hero Benefit in Action:** Demonstrate the immediate outcome or transformation (e.g. dirty ring becoming sparkling clean in bubbling water).
- **Image 3: Lifestyle Context:** Product placed in realistic aesthetic setting (modern bathroom vanity, minimalist desk, clean kitchen).
- **Image 4: Infographic & Feature Callouts:** 3 to 4 clear pointer lines highlighting core specs (e.g. "USB Rechargeable", "Waterproof IPX7", "Food-Grade Steel").
- **Image 5: Dimensions & Scale Reference:** Clear measurement graphic next to everyday object (phone, hand) to prevent "smaller than expected" customer disputes.
- **Image 6: What Is Inside The Box:** Neatly organized flat-lay of all package contents (device, cables, instruction booklet, accessories).
- **Image 7: Trust, Warranty & Guarantee:** Clean badge displaying 30-Day Money-Back Guarantee, Fast Dispatch, and 24/7 Customer Support.

3. PRODUCT VIDEO ANCHOR ASSET (MANDATORY)

- **Video Dimensions:** 9:16 vertical orientation (1080×1920px), minimum 15 seconds, maximum 60 seconds.
- **In-Video Product Tag Anchor:** Ensure product is clearly shown and mentioned within the first 5 seconds to pass automated moderation.

4. COMPLIANCE, CATEGORY & POLICY AUDIT

ACCOUNT HEALTH & BAN PREVENTION RULES

TikTok Shop policy strictly penalizes misleading descriptions. Verify all certificates (CE, FCC, RoHS) for electronics. Never sell replicas, branded duplicates, ingestible weight-loss supplements, or hazardous batteries without pre-approval. Violations result in instant 24-point penalty strikes and shop suspension.
